READY; CONFERENCE
TODAY POSTPONED**

Committee of Employers Are Framing Reply to Proposal of Miners Saturday.

MINERS STANDING FIRM

Disturb Six Hour Day and Take Issue With Secretary Wilson Who Says Granting of Such Concessions Would Make Them Favored Class.

By Associated Press.

WASHINGTON, Nov. 17.—The conference of wage committees in the central competitive bituminous coal field was postponed today at the request of the operators who were not ready to submit a counter proposal to the demands received from the miners Saturday.

Meantime a committee of the operators was framing a reply. It was said the question of a renewal of work by the miners was one of the matters to be brought up by the operators. Some of the operators protested that union miners had failed to return to work as ordered by Federal Judge Anderson at Indianapolis and in the face of withdrawal of the strike order by officers of the United Mine Workers of America. It was intimated this would be brought up at the next conference.

John L. Lewis, acting president of the miners' organization, held holding the miners' demands just took issue yesterday with the statement of Secretary Wilson that a wage increase of 60 per cent. would make them a favored class of workers.

The demands submitted to the operators Saturday readmitted the six-hour day but omitted reference to "from bank to bank." Lewis explained. The miners are now taking a maximum of six hours working time in the mines. The time required to go down into the mine and return to the surface would add an average of about a half-hour to the day, Lewis said.

**Y. V. MINERS ARE STILL
SHY ABOUT RETURNING**

CHARLESTON, W. Va., Nov. 17.—Despite the prediction of union leaders that all mines would be operating early reports to the Kanawha Coal Operators' association office here today indicated that there was little change in the strike situation in the southern coal fields of West Virginia and thousands of miners were refusing to return to work. The reports indicated that less than 50 per cent of the mines in the Kanawha field are operating. No new mines started working in the Cabin Creek district and meager reports from the Coal River district showed little change in the situation there.

**PARTIAL RESUMPTION OF
PENNSYLVANIA MINES TODAY.**

PITTSBURGH, Nov. 17.—Partial resumption of operations in the Pittsburgh coal field were reported today with the announcement that about one-half of the Punxsutawney field miners were producing coal. In the immediate vicinity of Pittsburgh, the union mines were closed.

The Houghs were accompanied by Joseph Miller, who also will reside in the Golden State.

Frank Miller has succeeded Mr. Hough as wire chief for the Tri-State.

**ARGONNE SURVIVOR,
DESPONDENT OVER ILL
HEALTH, ENDS HIS LIFE**

John Wallace, Member of Company G, 28th Infantry, First Division, Falls Bullet Through Head.

Despondency, caused by ill health due to gas and wounds received in the Argonne forest, prompted John Wallace, a member of Company G, 28th Infantry, First Division, to commit suicide by shooting Saturday night. Wallace walked into an out house on the rear of William Finerty's home at Lisenring No. 1, placed a revolver to his temple and blew out his brains.

After his return from France two months ago, Wallace was a patient at the Walter Reid hospital in Washington, D. C., and it is said that physicians at the hospital at the time of the returned soldier's discharge feared that he would never recover from the effects of the severe attack of poisonous gas he had received while battling with the Hun, and reluctantly permitted the patient to leave the hospital. He was also shot several times. Laboring under the impression that he could not recover, Wallace is believed to have become melancholy. Upon receipt of the assurance of friends in Lisenring that the young man would be well taken care of and given easy employment in the mines, the hospital authorities consented to the discharge. He arrived two weeks ago at the Finerty home.

Following suicide it was evident that the man had prepared to take his life, a far-well note having been found in his coat pocket.

Wallace is survived by one brother, Patrick Wallace of Shamrock. The body was removed to funeral director Charles C. Mitchell's parlors and prepared for burial.

TUBERCULOSIS DAY

December 5-7 Named for Observance by Governor Sprout.

Special to The Courier.

HARRISBURG, Nov. 17.—Governor Sprout has issued a statement asking the people of Pennsylvania to observe Tuberculosis Day during the Christmas season.

The governor named as Tuberculosis Days Friday, December 5, in the schools; Saturday, December 6, in the synagogues; and Sunday, December 7, in the churches.

Governor Sprout has bought the first health bond in the seal campaign, becoming the first member of the Seaside Health Bond club. The health bond is a new feature in the seal campaign. It is sold to a person who wants to aid the health and tuberculosis work in a substantial way. The bonds run in denominations from \$5 to \$100.

Dr. Thomas E. Finegan, state commissioner of education, is sending a letter to the 44,000 public school teachers in the state calling attention to the seal campaign.

THREE EXPLOSIONS

Lumber Company Plant Damaged and Three Men Hurt at Wheeling.

By Associated Press.

WHEELING, W. Va., Nov. 17.—Three terrific explosions which demolished the mill buildings of the Scott Lumber company, tore the side out of a building across the street, blew a part of another house nearby, injured three men, two of them seriously and shook all of Bridgeport and Wheeling Island, occurred this morning shortly before 9 o'clock at the Scott Lumber company's plant in Bridgeport.

The accident was caused by a gas receiver on a gas engine. After the engine exploded, two large air compressors let go. Eugene Hill and Albert Carpenter are in the Martins Ferry hospital in a critical condition, and E. H. Crookard is less seriously hurt.

Windows were broken in buildings all over Bridgeport. The Scott Lumber company's loss is estimated at \$30,000.

Carpenter, who had one eye blown out in addition to other injuries, died at noon at the hospital.

BUTTER CAUSES DEATH

Woman Dies and Four Others Are Seriously Ill at West Salem, Ohio.

By Associated Press.

WEST SALEM, O., Nov. 17.—Mrs. Sarah Haverstock is dead and two other women and two men are seriously ill at an Asland hospital today as a result of eating poisoned butter at a dinner given by the dead woman at her home here Friday.

Shortly after the dinner each of the five complained of feeling ill and a physician ordered them removed to the hospital, where Mrs. Haverstock died last night. Chemical tests proved that the butter, which had been made by Mrs. Haverstock, contained a poison believed to have been in the milk from which it was made. Physicians believe that cows owned by the Haverstock family had eaten a poisonous weed and that the deadly juice was contained in the milk.

Four Shipworkers Die.

PHILADELPHIA, Nov. 17.—Six Hog Island shipyard workmen were killed and nine other injured today when a motor truck on which they were riding to work was struck by a train at a grade crossing. The accident was due to the heaviest fog experienced here in many years.

On the Delaware river two ferry boats collided in midstream and a third ferry boat crashed into a ramp steamer lying at anchor.

Head of Treasury Department Accedes to Request of President Wilson.

TO DELAY TAKING OATH

Told That There Is No Particular Need to Be Sworn in Now, He Will Continue as Head of Treasury For Week or More Named by Governor.

By Associated Press.

WASHINGTON, Nov. 17.—At the request of President Wilson, Secretary Glass will accept the appointment as Senator from Virginia to succeed the late Senator Thomas S. Martin, it was announced today at the White House. After receiving the appointment of Governor Davis of Virginia, Mr. Glass asked the President what his wishes were and Mr. Wilson replied that he would like Mr. Glass to accept.

Secretary Glass has consulted with members of the Senate who told him that there was no particular need for him to take the oath as Senator for a week or more. Meantime he will continue to serve as head of the Treasury Department.

WOMAN FINED \$50

Rosa Lenthner Gets Still Penalty After Arrest Here.

Rosa Lenthner, alias Rosa Lenthner, was fined \$50 this morning by Mayor John Dugan for being an inmate of an alleged disorderly house on Water street, and Matt Deshommer and Joe Dabaz were assessed \$5 each for the same offense. Frank Cameo, alleged manager of the house, and Tony Gallo were discharged. They operate a restaurant at the place mentioned.

According to the story told the police, Dabaz and Deshommer claimed to have been robbed, the former of \$35 and the latter of \$150 last night at about 8:30 o'clock in one of the upper rooms of the restaurant. Patrolmen D. H. Turner and Andy Thomas and Fireman Harry Cypher went to the restaurant and arrested the two men. The woman had left the place in the meantime but was arrested shortly after in a nearby restaurant. She had locked herself in a room but was finally persuaded by Chief of Police Bowser to open the door. A thorough search, however, only produced a little more than \$5.

KILLS WIFE'S TRADUCER

James Dolle Accused of Shooting James Martini at Allison.

When James Martini, it is alleged, made the remark that the character of the wife of James Dolle was not above reproach, in the presence of Dolle at Allison works Sunday night, a revolver shot rang out and Martini fell dead with a bullet in his heart. Martini's body was removed to a morgue at Brownsville. Dolle has disappeared.

The men were engaged in friendly conversation when Martini, it is alleged, that he knew something of Mrs. Martini's conduct before her marriage. Enraged, Dolle drew his revolver and fired.

FALLS BETWEEN CARS

Baltimore & Ohio Brakeman Has Narrow Escape From Death.

When he tripped on a nail protruding from the running board of the top of a freight car at Hyndman Sunday morning and fell between two cars H. A. Burnworth of South Connellsville, a Baltimore & Ohio brakeman, saved himself by grabbing the ladder at the end of the car and hanging on, suffering excruciating pain, until the train stopped, when he fell to the ground and was picked up by members of the crew.

The muscles were wrenched from their fastenings and he will be incapacitated for some time. He came to the office of a physician here to have the injury dressed. Burnworth has been in the railroad service seven years. This is said to have been his first accident.

CONSIDER HINES PLAN

Railroad Brotherhoods Discuss Overtime for Slow Freight Service.

By Associated Press.

CLEVELAND, Nov. 17.—Heads of the four railroad brotherhoods met here today to consider Director General Hines' offer of overtime payments on slow freight service. They hope to be able to give an answer in a week. Those attending the conference included W. G. Lee of the trainmen, Timothy Shea of the firemen and engineers, Warren S. Stone of the engineers and L. E. Sheppard of the conductors.

Director General Hines has offered overtime payment in an unusual way and the offer requires consideration for the reason, Mr. Lee said.

War Department to Operate Institution Abandoned After \$117,000 Was Spent On It.

WASHINGTON, D. C., Nov. 17.—Through the efforts of Congressman Kendall, the federal government has taken over the sanitarium at Markleton which will be used for a government hospital for the treatment of tubercular patients from Pennsylvania, West Virginia and Delaware.

The attitude of Mr. Kendall in connection with this matter has prevented a very great injustice by the government to the owners of the sanitarium. Shortly after the United States entered the war, this sanitarium was taken over by the War Department to be used as a government hospital for tubercular cases. After occupying it less than a year and expending \$117,000 in improvements, the War Department suddenly abandoned it, sending the patients who had been confined therein to other hospitals.

When the matter was called to the attention of Mr. Kendall he took it up promptly with the War Department, laying great stress on the fact that the sanitarium was practically ruined for use other than as a tubercular hospital, and that its abandonment by the government would work a great injustice to the owners. After five months' untiring effort Mr. Kendall finally succeeded in having the government take it over, the contract having been signed on Thursday last, according to information given Mr. Kendall by Assistant Secretary of the Treasury, under whose department the Bureau of Public Health, which will operate the sanitarium, is administered.

Mr. Kendall's success in this case is a decided victory for Western Pennsylvania and will be of material benefit to the industrial interests of Somerset county, because of the great increase in the number of patients who will be confined in the hospital and the number of relatives and friends who will come into the section to visit them. The hospital at the present time can accommodate 300 patients and it is expected that it will be materially enlarged by the government to accommodate many times that number.

Mr. Kendall was assisted in his fight by Congressman James H. Greengard of Greene county, Congressman-at-large from the state.

**MORNING TRAIN ON
"SHEEPSKIN" NOT ON
NEW B. & O. SCHEDULE**

Petitioners for Better Service to Fairmount Lane, According to Unofficial Information.

In the new fall timetable of the Baltimore & Ohio railroad, now being made up, no provision has been made, it is said, for the morning train to Morgantown and Fairmont which business men of this locality some time ago petitioned for. Under the schedule which goes into effect Sunday, September 23, there will be a new train between Fairmont and Connellsville, arriving in Connellsville from West Virginia at 1 o'clock in the afternoon and another leaving Connellsville at 5 o'clock. Both trains will make all stops. The westbound train will be known as No. 41, the eastbound as No. 62.

Train No. 65 will leave Fairmont at 3 o'clock in the afternoon and arrive in Connellsville about 6:25 or 15 minutes later than the present schedule.

Train No. 66 will leave Connellsville about 9:50 in the morning, and arrive in Fairmont about 1 o'clock in the afternoon.

Train No. 69, which will run on a fast schedule with both a chair car and a diner will leave Fairmont at 8:50 in the morning, pass through Connellsville at about 9:50 and arrive in Pittsburgh at 11:30.

Train No. 70, which is train No. 69, on its return trip, will leave Pittsburgh at 5 o'clock, an hour later than the present schedule, arrive in Connellsville about 6:50 and reach Fairmont at 10:30.

Only slight changes will be made on the main line, it is said. The time card has not been completed but will be in a day or two. It will then be submitted to the general offices in Baltimore.

By Associated Press.

NEW YORK, Nov. 17.—Milk drivers whose recent threat of a strike won them an increase in pay and sent milk prices up, found a "consumers' strike" in progress in many parts of New York this morning when they made their early morning deliveries.

Hanging on doors of many homes and apartments were signs reading: "Milk strike. No milk wanted here until Thursday."

**WILSON WILL POCKET
PEACE TREATY IF LODGE
RESERVATIONS CARRY**

Considers Them Nullification of the Pact and "Effortly Impossible."

By Associated Press.

WASHINGTON, Nov. 16.—President Wilson will pocket the peace treaty if it contains the Lodge reservations, he told Senator Hitchcock at a conference today at the White House.

"The President has read and considered the Lodge reservations," said Senator Hitchcock, "and he considered them a nullification of the treaty and utterly impossible."

The program outlined by Senator Hitchcock after he had seen President Wilson last week will be carried through in the Senate. Mr. Hitchcock said. This contemplates defeat of the ratification resolution with the Lodge reservations attached and the offering of a resolution for ratification without reservation. With the defeat of the resolution a deadlock would follow and a compromise would be sought.

The President's decision drew from Republican leaders emphatic statements that there would be no compromise and that the original program would be adhered to.

"The only result has been to harden our minds," said Senator Lodge. It was the view of the Republican leaders that the Senate probably would reach a deadlock and they said if the treaty was withdrawn or failed, the situation would be chargeable to the administration.

Immediately after convening the Senate plunged into consideration of the two pending reservations. Senator Lodge, Republican, asked for brief time to discuss anti-racial legislation but Senator La Follette insisted that the treaty had right of way and was sustained.

Only two hours of the 55-hour maximum under the cloture rule had been consumed when debate began today.

Other items listed are: Ten shares of Southern Pacific Railroad stock, \$1,050; 10 shares Western Union stock, \$250; 10 shares Chesapeake & Ohio stock, \$580; 10 shares Southern Railroad stock, \$250; 10 shares South Connellsville Lumber company stock, \$1,000; one share Connellsville Spriggfield Telephone company, \$10; three shares Laurel Hill Telephone company stock, \$30; 200 shares Glass Casket company stock, \$2,000; cash in bank, \$1,700; amount due from estate of F. Claim War Tax On Corsets Hits Them and Exempts Slender Sisters.

Chicago, Nov. 17.—Unconstitutional discrimination against the rights of women possessing an excess of adipose tissue through the operations of the luxury tax on corsets costing \$15 or more is charged in a petition to Representative James R. Mann asking repeal of the law.

Byron W. Fight, attorney who prepared the petition, contends the taxed corsets are a necessity and not a luxury.

"Furthermore," the petition continues, "said tax is a discrimination between small and slender persons and large and portly persons, and is in violation of the constitutional rights of women."

The petition has many signers.

**LEGION AUXILIARY
LIMITED TO RELATIVES
OF WAR SERVICE MEN**

National Convention Decides Wives, Mothers, Sisters, Daughters and Widows Are Eligible.

Thomas W. Scott and Max C. Floto, state delegates to the American Legion national convention at Minneapolis last week, returned home Saturday night with reports of a "wonderful time." They will make a report to Bishop Post at its next meeting.

According to the local delegates, the convention turned down a score or more of women's organizations that sought to be recognized as the woman's auxiliary of the Legion, and decided to form its own auxiliary along the lines of "a Pennsylvania post," which meant Connellsville, Pa. The membership, however, will be limited to mothers, wives, daughters, sisters or widows of service men. That will mean a pruning down of the membership of Bishop Post auxiliary for it was formed with women war workers eligible to admission. It was evident, the local delegates say, that the Connellsville auxiliary was the first formed in Pennsylvania and one of the first in the country.

The Legion liked the idea of an auxiliary but thought it best to have an organization of its own, composed of relatives of war service men, rather than to recognize some organization already organized. The chairman of the convention asked if any auxiliaries had been formed and the secretary replied: "Yes, a Pennsylvania post has one" and he meant Connellsville.

An associate membership plan, whereby Legion posts could elect men who had done much war work at home, was killed in committee.

There were about 1,600 delegates at the convention, representing every state in the union. Alaska and Hawaii each had a representative. Pennsylvania had the largest delegation, Massachusetts the largest voting power and Pennsylvania next largest. The local delegates were gone over a week. They received wonderful treatment in Minneapolis, they report.

**J. A. McCREARY IS
KILLED WHEN CAR
STRIKES HIS AUTO**

Local Garage Proprietor Backs Across Tracks at Poplar Grove as Trolley Passes.

WAS ALONE IN MACHINE

What His Errand Was and Just How Accident Occurred Will Never Be Explained; Death Instantaneous; Tragic News a Shock to Community.

When his automobile, of which he was the sole occupant, was struck by a West Penn Railways company car at Poplar Grove, Saturday evening, James A. McCreary, proprietor of the J. A. McCreary Motor company and one of the leading business men of the city, was killed instantly. The impact was such that the automobile was almost completely wrecked and a pole supporting the trolley wire with which the automobile collided was broken. The accident happened about 7:15 o'clock, the car which was involved in the accident being the one leaving Connellsville at 7 o'clock for Greensburg and running a title late.

While it was reported Mr. McCreary lived a few minutes, physicians called to the scene said death was instantaneous. His neck was broken. He was not mutilated and apparently was not otherwise hurt. His body remained in the car.

The accident occurred on the crossing of the street leading from the brick road back into Poplar Grove, between the homes of W. C. Means and M. E. Frazee. Just how perhaps nobody will ever know. Save the motorman and a person or two sitting on the front seats of the car nobody is known to have witnessed the collision. The crossing is just below a curve at the foot of Buttermore hill and for the motorman of the car there was but a momentary glimpse of the automobile ahead of him as he sped from the curve and onto the crossing. As to the automobile the presumption is that Mr. McCreary, who had driven from Connellsville a few minutes before, had backed it from the brick road with the intention of turning and coming back to town. It is reported another car was coming from

J. A. MCCREARY IS KILLED

WHEN CAR STRIKES HIS AUTO

Continued from Page One.

for the music for the funeral of Mrs. Means Sunday. Persons connected with the funeral say this was not the case. He had not been to the Means house; it was learned.

News of the untimely death of one of the city's leading men caused a shock and general expressions of regret.

James Alexander McCreary was 45 years old. He was born at Cortland, Ohio, March 22, 1874, a son of Mr. and Mrs. James Miller McCreary. He learned the carpenter trade in early life and followed it for a short time. He then turned his attention to structural iron and bridge work and was employed at that for eight years. Subsequently he was employed by the Pennsylvania Steel company at Steelton, Pa., as inspector of steel and then was appointed superintendent of the pattern making shop of the Cambria Steel company at Johnstown, and later was made superintendent of the structural steel shops there.

In 1904 Mr. McCreary came to the coke region as superintendent of the shops of W. J. Rukey at Mount

THIS MOTHER AND DAUGHTER

Both Made Well by Lydia E. Pinkham's Vegetable Compound.

Steele, Ala.—"During the Change of Life I had hot flashes, was nervous, run down, and had sick headaches for two or three days at a time. I took Lydia E. Pinkham's Vegetable Compound and I am much stronger and better in every way than I was. My daughter's health broke down last June from teaching school without a rest, and she has taken Lydia E. Pinkham's Vegetable Compound and the Blood Medicine with good results. She is much better and teaching now and I give your medicine the praise. You are welcome to use this letter for the benefit of other suffering women."—Mrs. F. A. GAINES, R. R. No. 1, Steele, Ala.

Women who suffer as Mrs. Gaines did should not hesitate to give this famous root and herb remedy, Lydia E. Pinkham's Vegetable Compound, a trial, as the evidence that it constantly being published proves beyond question that this grand old remedy has relieved much suffering among women.

For confidential advice write Lydia E. Pinkham Medicine Co., Lynn, Mass. The result of their forty years' experience is at your service.

Bradock where he was engaged for a number of years. It was here that he exercised his inventive and mechanical genius in perfecting, with T. J. Mitchell, then general superintendent of the Rainey interests, a number of coke-making devices which are now in use, including the rectangular pusher oven, known as the Mitchell oven, and devices for use in connection with it. He also was the inventor of a coke oven door that made unnecessary the bricking up process that had been generally used. After his retirement from the Rainey company he was engaged in the marketing of the oven door and other devices.

About two years ago Mr. McCreary purchased the lot at East Crawford avenue and Apple street and erected thereon a modern garage and repair shop which he had since very successfully conducted, being agent for a well-known car.

The deceased was a member of King Solomon Lodge of Masons and was prominent in the Methodist Episcopal church, being a member of the official board, president of the Men's Bible class and a member of the choir. He was a director of the Citizens National bank.

In 1895 Mr. McCreary was married to Miss Bertha Jean Crile, daughter of Alfred and Catherine Hoover Crile, well known Wayne county, O., woman. Besides his wife he is survived by the following brothers and sisters: Frank McCreary and Claude McCreary, Warren, Ohio; Mrs. Joseph Green, Fairport, Pa.; and Louis McCreary, Canton, Ohio.

Funeral services will be held this evening at 7:30 o'clock at the home, with Rev. G. L. C. Richardson officiating. The remains will be taken to Canton, Ohio, Tuesday morning, leaving here on the 7:25 Pennsylvania train. An escort of Masons will accompany the body.

The Grim Reaper

DR. RAY V. SEMBOWER.
Dr. Ray V. Sembower, 33 years old, died Saturday afternoon at Crescon, where he was removed last week. The deceased was a son of Mr. and Mrs. J. M. Sembower of 705 Isabella road. His death was the first to occur in the family. He adopted the career of medicine, having studied at Muskhogum college, New Concord, O., and graduated from the Cincinnati Medical college, Cincinnati, Ohio, in 1917. When he became ill he was an intern at the Allegheney hospital. Eighteen years ago Dr. Sembower united with the United Presbyterian church under the pastorate of Rev. Laurence. Several years ago he transferred his certificate to the First Presbyterian church of Cincinnati, O., where he was in full membership at the time of his death. The deceased is survived by his parents and the following brothers and sisters: Shirley S. Sembower, Ashland, Ky.; James and Hubert, at home; Mrs. Gertrude Patterson, Oxford, Pa.; Mrs. Geraldine Shearer, Vandergrift.

The body arrived here today and was removed by Funeral Director Charles C. Mitchell to the Sembower home. Funeral services Tuesday afternoon at 2 o'clock. Interment in Hill Grove cemetery.

MRS. MARY ROSE.
Mrs. Mary Rose, about 33 years old, a well known colored resident of the West Side, died Sunday at her home in North Seventh street. She was a widow and is survived by four sons.

EASES A COLD WITH ONE DOSE

"Pape's Cold Compound" Then Breaks Up a Cold in a Few Hours.

Relief comes instantly. A dose taken every two hours until three doses are taken usually breaks up a severe cold and ends all gripe misery.

The very first dose opens your clogged-up nostrils and the air passages in the head, stops nose running, relieves the headache, dullness, feverishness, sneezing, soreness and stiffness.

Don't say stuffed-up! Quit blowing and snuffing! Clear your congested head! Nothing else in the world gives such prompt relief as "Pape's Cold Compound," which costs only a few cents at any drug store. It acts without assistance, tastes nice, contains no quinine—Insist upon Pape's!—Adv.

TIME FOR WORKERS TO ASSESS THEIR INDEPENDENCE

The appeal Harry A. Mackey, chairman of the Pennsylvania Workmen's Compensation Board, makes to labor to take step with public sentiment and yield to the demand for increased production, ought to be heeded. It will be heeded if workers follow their own judgment and sound sense instead of allowing themselves to be influenced by the unwise counsel of self-seeking leaders.

Through his relationship with labor, in the discharge of the duties of the office, Chairman Mackey has had unusual opportunities to learn how individual workmen feel, upon most problems affecting the relation of labor to the public. "I know," he says, "of no substantial bread winner in Pennsylvania who, prompted by his own judgment, would cease, at this time, to do a man's part. Now is the time for such men to stop and consider how far they will follow an irrational and un-American leadership."

The trend of that leadership is plainly so dangerous that it cannot be followed without disastrous consequences to the cause of labor. To say nothing of the disruption it threatens to the orderly progress of law and government. That leadership is insistent in its demand that the hours of work be shortened and other radical measures affecting production be adopted. Under certain circumstances this in itself would not be wrong, but in the relation the demand sustains to the needs of the world, our own country included, it is both wrong and unwise and detrimental to every interest and to the interest of every citizen.

During the past five years the world has suffered the most prodigious waste of the products of labor of any period in history. The whole scheme of industrial progress has been halted or diverted from its purpose to meet the exigencies of war. With the struggle in the field over for more than a year past the progress America has made in getting back to normal has been all too slow, simply because effort has been made by visionary and unscrupulous leaders to apply every sort of remedy other than getting down to hard and steady work as a means of righting conditions. Appealing to labor to take advantage of the situation to enforce unreasonable and impossible demands the leaders have brought the country near to the brink of industrial disaster and have made still more difficult and prolonged the process of readjustment to a peace time basis.

Realizing the tremendous advantages that would come to the nation making the quickest industrial recovery, Germany was the first of the belligerents to get to work. Its industries began to resume operation very shortly after the demobilization of its army. Instead of demanding shorter hours of work than prevailed before the war the workers are observing a longer day. They understand what larger production means as an agency in the restoration of the industrial and commercial importance of their country. While they have had a series of labor troubles these have been much less general in their manifestation and much more quickly settled. As a whole the German nation is at work and is fast making ready to recoup the material losses it sustained by the war.

In this fact, we in America, have made practically no progress except in the direction of more wide-spread unrest and dissatisfaction, and this has been fostered by an un-American element in our population, not by the native born workmen as a class. The unfortunate feature of the situation has been, however, that many inconsiderate workers have permitted themselves to be made the dupes and tools of designing leaders whose only interest has been to embarrass industry and commerce to the manifest advantage and profit of Germany. The thoughtless in the ranks of labor have allowed themselves to be led away from the fundamental basis of our democracy, and to fill the ranks with vague, impossible, dangerous and un-American doctrines.

It is time for such as have yielded to these seductions "to stop" and assert their independence and sovereignty of their own individual selves, declares Chairman Mackey, in his concern for the maintenance of conservatism in the ranks of the workers and the promotion of industrial supremacy. Time "to pass" the agitator up as a public menace. Time to place no limit on the amount of work that can be done. Time to show Germany we can win the war after the war by the same kind of team work and individual effort with which we won the war itself.

FARMERS NOT BOLSHIEVISTS.
 The radicals among the labor organizations will not realize their expectation that the farmers of the country would join hands with them in the efforts that are being made to establish un-American methods and principles in the relations of the workers to industry and the government. The question, as the farmers view it, is one involving patriotism and loyalty to the country. On that proposition the farmers have never left the country in any doubt as to their attitude. From the days of the American Revolution until now, the embattled farmers have been among the first to fly to the rescue of an imperiled country. They are doing so now when bolshevism, sovietism and other foreign-born revolutionary doctrines are beginning to permeate the ranks of organized labor, to create sharper divisions between the classes and undermining the very foundations of society.

In recent gatherings of farmers' organizations they have given voice in no uncertain terms to their disapproval of everything that savors of radicalism. The demands of labor leaders for increased wages and shorter hours of work, and the activities of the bolshevik element in the ranks of labor, the farmers have declared to be nothing less than "a proposal that one class should rule the country, a class many of whom are unable to speak our language or understand the spirit of our American institutions."

It is this unequivocal attitude with respect to all questions involving the rights of the people, under the law, to govern the country, that determined the issue raised by the recent campaign in Massachusetts. It won there overwhelmingly and will win everywhere. The whole union because the farmers of the land are standing squarely on the principles that have been their mentor and guide as patriotic citizens from the beginning of the government. They are Americans, not bolsheviks.

Washington really keeps its pledge to dispose of the treaty within the next ten days, we will have unusual reason for giving thanks this year.

In the death of J. A. McCrory, Conneltsville is called upon to mourn the untimely taking away of another of its citizens whom the community can all afford to spare. Of sterling qualities as a man, friend and neighbor, and concerned about the success of every good thing that would advance the material and moral interests of the city, he was the type of resident whom it is the rare good fortune of any community to possess and a great misfortune to lose.

This is the open season for hunting Reds. The worm has turned at last. The milk consumers of New York have obtained to refrain from the use of milk three days in the week in protest against the prices the distributors are demanding.

The Administration might try in the Senate some of the compromise proposals so highly to the coal miners and operators as a specific for healing treaty wounds.

"Step lively" in settling the new mine wage scale agreement is a very proper order to both the miners and the operators.

Can't Combine Farmers and Laborers. Various efforts to combine the farmers and the labor vote have been made in the past and they have all failed, because of these divergent interests. It is this fact, among others, which has retarded the policy of the Federation of Labor of adhering to industrial rather than political action. There is no fundamental change in the situation which would suggest that what has been impossible heretofore can be successfully achieved now.

Who Remembers? The old-fashioned railroad man that helped you find your lost freight shipment?

DREAMS.

The things that are, were the dreams of old. The work of the few brave men and bold. There's little we own and enjoy today. Not a bulb of light or a level way. But stands as proof of the faithful few who dared to dream of what men might do. Never by many men, marvels wrought; By one or two are the dreams first caught. The throng will follow the easy way. Content to live with his yesterday. And the dreamer, winning a better plan, Must bear the jeers of his fellow man. The dreamer must tell when the odds are great. Must stand to failure and work and wait. He must keep his faith, though he stand alone. Until the truth of his dream is known. For the crowd must follow its well-worn groove. It is hard to change and it's hard to more. Dreamers have charted the open seas and broken the vaults of the centuries. Dreamers have dared what the many feared. And conquered in spite of the men who were known. For the joys that are and the things we know. Were the dreams of the few in the long ago.

THANKSGIVING BARGAIN NOVELTIES

Every one of our sixty-three stores is filled in every department with choice Thanksgiving merchandise in the way of raiment for men, women, boys, and children. We will not specify—it would take a whole half page of this paper to tell you of all the interesting and popular bargains that we have. We especially want to call your attention, however, to our extraordinary good line of dry goods, notions, underwear, and all sorts of warm clothing.

We drop this subject and drift to an entirely different one—Thanksgiving Dinner Supplies, which interests most everybody. We particularly call your attention to our meat markets and the extraordinary assortment of supplies that we have for you, and to our grocery and produce departments containing all sorts of fancy and staple groceries and all sorts of fruits, fresh vegetables and produce, but the most important part of all is the popular, fair prices at which you can buy these goods. Try us—go to the nearest Union Supply Company store. Test us out—the way to do so is to make a purchase.

FALLS IN BRIDGE EXCAVATION AND IS SERIOUSLY INJURED

**Prof. J. Hunter Gambles
Hurt at Iron Bridge Sat-
urday Night.**

WAS UNCONSCIOUS A LONG TIME

Does Not Regain Consciousness Until
Sunday: Friends Give Dinner for
Miss Hood Who is to Leave for
California; Warden Recommended.

Special to The Courier.

MOUNT PLEASANT, Nov. 17.—Prof. J. Hunter Gambles on Saturday evening was returning to his home at Iron Bridge when he stepped to speak a few words to the night watchman at the new bridge. As he stepped back, he went down one of the holes that are being dug to put in the concrete base for the bridge. He struck his head and was severely injured. He regained consciousness only yesterday. Prof. Gambles is one of the best known violinists in this part of the county. He is a member of the faculty of the Mount Pleasant Institute, has charge of the orchestra at the Mount Pleasant public schools and teaches violin here.

Dinner for Miss Hood.
Misses Rachel Stoner, Jean Smith and Florence Loar gave a dinner at the Poodle farm to a few close friends of Miss Sara Hood Saturday evening. Miss Hood, with her mother, Mrs. Virginia Hood, leaves today for California.

Bandits Win.
The Mount Pleasant Bandits on Saturday afternoon defeated the Latrobe Juniors at Frick park here by a score of 9 to 5.

Warden May Be Trustee.
At a meeting of the Memorial Hospital board on Friday evening, the name of Attorney Eugene Warden was unanimously voted upon to be recommended to the Orphans Court for appointment as a trustee to take the place of the late J. McD. Bryer. The court appoints three of the trustees.

LESS MEAT IF BACK AND KIDNEYS HURT

Take a Glass of Salts to Flush Kid-
neys If Bladder Bothers
You.

Eating meat regularly eventually produces kidney trouble in some form or other, says a well-known authority, because the uric acid in meat excites the kidneys, they become overworked, get sluggish, clog up and cause all sorts of distress, particularly backache and misery in the kidney region; rheumatic twinges, severe headache, acid stomach, constipation, torpid liver, sleeplessness, bladder and urinary irritation.

The moment your back hurts or kidneys aren't acting right, or if bladder bothers you, get about four ounces of Jad Salts from any good pharmacy; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then get fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush clogged kidneys and stimulate them to normal activity; also to neutralize the acids in the uric acid so it no longer irritates, thus ending bladder disorders.

Jad Salts cannot injure anyone; makes a delightful effervescent lithia-water drink which millions of men and women take now and then to keep the kidneys and urinary organs clean, thus avoiding serious kidney disease.—Adv.

Every Connelleville Druggist Is Grossly Underpaid

How Much He Gives in Service Compared to What He
Receives in Return.

No professional man in Connelleville serves the community better or more conscientiously than the druggist.

He accommodates you with postage stamps at cost, maintains a general information bureau and free waiting room, his store is a first aid hospital conducted without reward, he gets up in the middle of the night to answer your emergency call.

Night and day he is consulted often than any other, and he gives his professional services without fee. His only reward, and it is a small one at that, comes when you make a purchase from his stock of merchandise.

You accept his recommendation just as you accept that of your lawyer, your doctor or your banker, because you know that his word is good and that he knows best. He can't afford to make mistakes—and he doesn't. He knows that his whole success in his chosen profession depends on accuracy—on skill—on keeping faith with his customers.

He stakes his reputation a hundred times a day with a hundred different customers—but his judgment is founded on knowledge and experience—the knowledge and experience of the men of his profession handed down through the ages through schools, colleges and text books—and the knowledge and experience which come in the day's work and in association and conference with others in his profession.

The druggist of today doesn't guess—he knows. And one of the reasons

he knows is because he insists that the preparations he sells shall measure up to the highest standards.

To recommend an article, the druggist must, of course, know what it contains and how it is made, and this was one reason for the formation of a co-operative national association of druggists and physicians who prepare a complete line of household remedies and toilet goods. This association is the American Druggists' Syndicate.

This is the largest enterprise of its kind in the world. More than 28,000 druggists and physicians own and operate it and guarantee its products. They know that A. D. S. Milk of Magnesia is the best in the world, they guarantee that A. D. S. Aspirin meets the highest standards of quality, they stand back of A. D. S. Peridol Tooth Paste—the tooth paste which whitens like Peroxide—because it is incomparably the best. And the same druggists in the same way are squarely behind the entire family of A. D. S. products.

It means everything to you to have such a guarantee behind the remedies you buy—a guarantee based on the scientific knowledge and experience of thousands of experts. When you buy an A. D. S. product from an A. D. S. druggist, you may do so in the confident belief that you have secured the finest possible product at the lowest possible price.

Ask any A. D. S. Druggist for A. D. S. product the next time you need any household remedy or toilet article sold in a drug store.—Adv.

STOP ITCHING ECZEMA Penetrating, Antiseptic Zemo Will Help You

Never mind how often you have tried and failed, you can stop itching, itching eczema quickly by applying Zemo furnished by any druggist for 25c. Extra large bottle, \$1.00. Healing begins the moment Zemo is applied. In a short time usually every trace of eczema, tetter, pimples, rash, blackheads and similar skin diseases will be removed. For clearing the skin and making it vigorously healthy, always use Zemo, the penetrating, antiseptic liquid. It is not greasy, salve and it does not stain. When others fail it is the one dependable treatment for skin troubles of all kinds. The E. W. Ross Co., Cleveland, O.

Krew-Pina a Great Pain Banisher For Coughs, Colds, Bron- chitis, Tonsillitis, Cuts and Bruises.

Krew-Pina is one of the finest remedies that has been discovered for the relief of pain and soreness or almost any sort of internal or external inflammation. It is an ointment of general use containing no harmful drugs, but is quick in its effectiveness and positive in its results. One application will break a cold overnight.

Croup, tonsillitis and bronchitis are quickly relieved and sore aching feet soothed and comforted by Krew-Pina. Asthma, pleurisy, headache, and whooping cough all respond to Krew-Pina and give relief. Sore joints and muscles loosen up under a treatment of Krew-Pina and sunburn, insect bites and eczema all heal rapidly. Splendid for catarrh, sore throat, sprains, chilblains, hay fever, stiff neck, cold sores and neuralgia.

Krew-Pina is particularly adapted to the treatment of the flu and hurts of little children for it is pleasant, has no disagreeable odor and doesn't blister the skin. Mothers find it a great help in keeping the little ones free from pain.

RURAL SCHOOLS OF COUNTY CLASSIFIED UNDER SALARY ACT

Two Hundred Twenty-two Em-
braced in List Announced
By Supt. Carroll

DISTRICTS MAY APPEAL

State Appropriation for County
Schools Largely Increased Through
Operation of the New Law; Object
Is to Raise Standard of Teachers

State appropriation for Fayette county public schools is increased \$1,465 per month under the operation of the Woodruff act by which certain of the schools in the sparsely settled districts are reclassified as rural schools. The list of schools in the county which have been placed in the rural classification and also the schools in the county districts which do not qualify within the meaning of the new teachers' salary bill have been made public by County Superintendent John S. Carroll. The State Board of Education will accept appeals from this classification until December 1, but in order to have them filed at Harrisburg by that time it will be necessary to communicate with Superintendent Carroll at once.

Provision is made in the Woodruff act for the payment by the state to the school district of \$5 per month for each teacher employed in a rural school. Where the teacher holds a provisional certificate the district retains the amount, paying the teacher not less than the minimum salary of \$80 fixed in the law. Where the teacher holds a certificate higher than provisional the \$5 is added to what she would ordinarily receive from the district.

The term rural school as applied to the additional appropriation is:

The term rural school shall be taken to mean any school not being a high school situated in the open country or any school not being a high school situated in small centers of population. The decision of the superintendent of public instruction as to whether a school is a rural school shall be final and when any such decision is required, the secretary of the board shall furnish a statement to the superintendent of public instruction containing such information as he may require.

Several months ago Mr. Carroll sent blanks to all school boards for information to determine the number of rural schools in Fayette county. Those blanks, when returned, were forwarded to Harrisburg and classified and the return made to Mr. Carroll. Some law of the districts, however, have not yet returned the blanks and it will be necessary for them to be returned immediately to Mr. Carroll to secure the benefit of the additional appropriation.

There are 170 one-room schools in Fayette county, all of which are classified as rural schools. In addition there are 53 other schools classified as rural schools having more than one room, making a total of 223 teachers coming under the rural appropriation. It was his turn to pause. "Yes," he confessed, at length.

"Then tell me."

So he led her down through the tracks of his youth and the lonely, reddish course of his boyhood. She followed sympathetically to the day when Doctor Healy and his daughter Irene became guests at the Eiden ranch. But before the end he stopped. Should he tell her all? Why not? She had opened her life to him. So he told her of that last evening with Irene, and the compact under the trees and the moon. Her hand had fallen into his as they talked, but here he felt it slowly withdrawn. But he was fired with the flame of love which had sprung up in the breath of his reminiscence. . . . And Ildith was his friend and his chum.

"And you have been true?" she said, but her voice was distant and strained.

"Yes."

"And you are waiting for her?"

"Yes, I am waiting. . . . It must be so."

"It is cold," she said. "Let us go home."

CHAPTER VI.

Whatever the effect of this conversation had been upon Edith, she concealed it carefully, and Dave counted it one of the fortunate events of his life. He had been working under the spur of his passion for Irene, but now this was to be supplemented by the friendship of Edith. That it was more than friendship on her part did not occur to him at all, but he knew she was interested in him, and he was doubly determined that he would fortify her interest and confidence.

But just at this time another incident occurred which was to turn the flood of his life into strange channels. Dave had been promoted to the distinction of a private office—a little six-by-six "box stall," as the sport editor described it—but, nevertheless, a distinction shared only with the managing editor and Bert Morrison, compiler of the woman's page. Her name was Roberta, but she was masculine to the tips and everybody called her Bert.

Into Dave's sanctuaries one afternoon in October came Conward. His habitual cigarette hung from his accustomed short tooth, and his round face seemed paler than usual. His attention to any exercise more vigorous than offered by a billiard cue was beginning to reflect itself in a premature rotundity of figure.

"Lo, Dave!" he said. "Alone?"

"Almost," said Dave, without looking up from his typewriter. Then turning, he kicked the door shut with his heel and said, "Shoot!"

"This strenuous life is spoiling your good manners, Dave, my boy," said Conward, lastly exhaling a thin cloud of smoke. "If I work made a man rich you'd die a millionaire. But it isn't work that makes men rich. Ever think of that?"

"If a man does not become rich by

"If a Man Does Not Become Rich by Work He Has No Right to Become Rich at All," Dave retorted.

work he has no right to become rich at all," Dave retorted.

"What do you mean by that word 'right'?" Dave's defiance it.

"Haven't time. We go to press at four."

"That's the trouble with fellows like you," Conward continued. "You haven't time. You stick too close to

There Was Nothing So Good for Congestion and Colds as Mustard

But the old-fashioned mustard plaster burned and blistered while it acted. Get the relief and help that mustard plasters gave without the plaster and without the blister.

Mustard does it. It is a clean, white ointment, made with oil of mustard. It is scientifically prepared, so that it works wonders, and yet does not blister the tenderest skin.

Gently massage Mustard into the finger-tips. See how quickly it brings relief—how speedily the pain disappears.

Use Mustard for sore throat, bronchitis, tonsillitis, croup, stiff neck, asthma, neuralgia, headache, congestion, pleurisy, rheumatism, lumbago, pains and aches of the back or joints, sprains, sore muscles, bruises, chilblains, frost-bitten feet, colds of the chest (it often prevents pneumonia).

your jobs! You never see the better chances lying all around. Now suppose you let them go to press without you today and you listen to me for a while."

Dave was about to throw him out when a gust of wind for the open spaces swept over him again. It was true enough. He was giving his whole life to his paper. Promotion was slow, and there was no prospect of a really big position at any time. He remembered Mr. Duncan's remark about newspaper training being the best preparation for something else. With sudden decision he closed his desk.

"Shoot!" he said again, but this time with less impatience.

"That's better," said Conward. "Have you ever thought of the future of this town?"

"Well, I can't say that I have. I've been busy with its present."

"That's what I supposed. You've been too busy with the details of your little job to give attention to bigger things. Now let me pass you a few pieces of information—things you must know, but you have never put them together before. What are the natural elements which make a country or city a desirable place to live?"

"I'll tell you. Climate, transportation, good water, variety of landscape, opportunity of independence. Given these conditions, everything else can be added. Then there's transportation. This is one of the few centers in America which has a North-and-South trade equal to its East-and-West trade. We're on the crossroads. Every settler who goes into the North—and it is a mighty North—means more North-and-South trade. I tell you, Dave, the movement is on now, and before long it'll hit us like a tidal wave. I've been a bit of a gambler all my life, but this is the biggest jack-pot ever was, and I'm going to sit in. How about you?"

"I'd like to think it over. Promotion doesn't come very fast on this job, that's sure."

"Yes, and while you are thinking it over chances are slipping by. Don't think it over—put it over. I tell you, Dave, there are big things in the air. They are beginning to move already. Have you noticed the strangers in town of late? That's the advance guard."

"Advance guard of a real estate boom?"

"Hish! That's a bad word. Get away from it. Say 'industrial development.'"

"Let me elaborate. We'll say Alkali Lake is a railway station where lots go begging at a hundred dollars each. In drops a well-dressed stranger—buys ten lots at a hundred and fifty each—and the old-timers are chuckling over sticking him. But in drops another stranger and buys a block of lots at two hundred each. Then the old-timers begin to wonder if they didn't sell too soon. By the time the fourth or fifth stranger has dropped in they are dead sure of it, and they are trying to buy their lots back. All sorts of rumors get started, nobody knows how. New railways are coming, big factories are to be started, minerals have been located, there's a secret war on between great moneyed interests. The town council meets and changes the name to Silver City—having regard, no doubt, to the alkali in the slough water. The old-timers, and all that great, innocent public which is forever hoping to get something for nothing, are now glad to buy the lots at five hundred to ten thousand dollars each, and by the time they've bought it up the gang moves on. It's the smoothest game in the world, and every community will fall for it at least twice. . . . They're here."

"Of course, it's a little different in this case, because there really is something in the way of natural advantages to support it. It's not all hot air."

"Now, Dave, I've been dipping to a little already, and it struck me we might work together on this deal. Your paper has considerable weight, and if that weight falls the right way you won't find me stingy. For instance, an item that this property—'he produced a slip with some legal descriptions—'has been sold for ten thousand dollars to eastern investors—very conservative investors from the East, don't forget that—might help to turn another deal that's just hanging. Sorry to keep you so long, but perhaps you can catch the press yet." And with one of his friendly mannerisms Conward departed.

Dave sat for some minutes in a quandary. He was discouraged with his salary, or rather, with the lack of prospect of any increase in his salary. Conward's words had been very unsettling. They pulled in opposite directions. They dined him with a new enthusiasm for his city, and they intimidated that a gang of professional land-gamblers was soon to perpetrate an enormous theft, leaving the public holding the sack. Still, there must be a middle course somewhere.

At any rate, he could use Conward's story about the land sale. That was news—legitimate news. Of course, it might be a faked sale—faked for its news value—but reporters are not paid for being detectives. The Evening Call carried a statement of Conward's sale, and on that statement was hung a column story on the growing prosperity of the city and its assured future, now

HOME MADE RECIPE CATARRH AND COLDS

Nonexpensive—Cut This Out.

Thousands are making this beneficial remedy at home and anyone who has catarrh or a cold can do the same.

Ask your druggist for three quarters of an ounce of Mentholized Azeine and pour it into a pint bottle, then fill the bottle with water that has been boiled.

Gargle the throat as directed and sniff or spray the liquid into the nostrils twice daily. It's a simple way to get rid of cold and catarrh and keeps the nasal passage and throat so clean and healthy that germs of flu or any other germs will have a hard time gaining a foothold.

WAS NERVOUS AND RUN DOWN

RESTORED TO NORMAL HEALTH BY BIO-FEREN

"I feel I owe you people a world of gratitude for the benefit I have received in using your wonderful remedy—Bio-feren Tablets, which have completely restored me to normal conditions," says Joseph E. Webb of Muncie, Indiana.

Before is without doubt the grandest and quickest remedy for nervous, run down, weak, anemic men and women ever offered direct through the druggists and is not at all expensive.

Take two after each meal and one at bed time, and after seven days take one after each meal and one at bed time until the supply is exhausted.

Then if you feel that any claim made in this special notice is untrue—if you are not in better health—if you do not feel ambitious, more vigorous, and keener minded, yes, twice as much as you did before, the druggist who sold you the tablets will gladly hand you back just what you paid for them.

All druggists in this city and vicinity have a supply on hand, or can easily get it for you. Seven a day for seven days—Wonderful results.

ing to its exceptional climate and natural resources, combined with its commanding position on transportation routes, both east and west and north and south.

During the following days Dave had a keener eye than usual for evidences of "industrial development." He found them on every hand. Old properties, long considered unsalable, were changing owners. Money moved easily; wages were stiffening; tradesmen were in demand. There was material for many good stories in his investigations.

He began writing features on the city's prosperity and prospects. The rival paper did the same and there was soon started between them a competition of optimism. The great word became "boom." The virus was now in the veins of the community, pulsing through every street and byway of the little city. Dave marvelled and wondered how he had failed to read these signs until Conward had laid their portrait bare before him. But as yet it was only his news sense that responded; his delight in the strange and the sensational. He was not yet inoculated with the poison of easy wealth.

3 OR 4 DOZEN INSTEAD OF 3 OR 4 EGGS, A DAY

This Shows How Little Hens Can Be Made to Produce Money in Winter.

"When I began using Don Sung in December, I was getting only 3 or 4 eggs a day from 50 hens. Within three weeks, before I had reached a 50 cent package of Don Sung, I was getting from 3 to 4 dozen each day. I shall never be without Don Sung."—Jeremiah Hedges, R. F. D. 1, Shawway, Ill.

This 3 or 4 dozen eggs a day, at winter prices, was almost clear profit. Your hens should do as well. It's no trouble to use Don Sung and you risk nothing by trying it, under this offer. Give your hens Don Sung and watch results for one month. If you don't find that it pays for itself and pays you a good profit besides, simply tell us and your money will be promptly refunded.

Don Sung (Chinese for egg-laying) works directly on the egg-laying organs, and is also a splendid tonic. It is easily given in the feed, improves the hen's health, makes her stronger and more active in any weather, and starts her laying.

Try Don Sung for 30 days and if it doesn't get you the eggs, no matter how cold or wet the weather, your money will be refunded with return mail. Get Don Sung from your druggist or poultry remedy dealer or send 50 cents for a package by mail prepaid. Burcett-Dugger Co., 26 Columbia Bldg., Indianapolis, Ind.—Adv.

C. H. S. LOSES TO M'KEESPORT HIGH BY SCORE OF 6-0

Outplays Opponents in First
Half But Visitors Gain at
Will in Second.

C. H. S. was defeated Saturday afternoon by the McKeesport high school football team by a single touchdown and the fans were not disappointed in the showing the local team made against their heavier opponents. McKeesport won the toss and chose to kick. Francis received and ran the ball back to the 35-yard line. McKeesport then made 10 yards on a long forward but failed to gain, on the next two plays and Danner kicked. McKeesport tried the line but was held for downs and kicked. Danner went off tackle for nine yards and Whiskey carried the ball over to a first down. Markus replaced Sharp. Another nice forward pass, Francis to Bufano, netted C. H. S. a gain of 35 yards; but it lost the ball on downs and kicked. Pateria made some nice runs and but around end for 20 yards, but the half ended with the ball on McKeesport's 25-yard line. Connelville played the better game in this half.

The second half told a far different story. McKeesport started a steady advance down the field and Pateria broke through the line for a 65-yard run, carrying the ball over the goal line but one of his teammates was offside and the ball was brought back. Connelville's line was unable to hold and only the whistle for the third quarter saved them from a score.

In the early part of the last quarter, Pateria made a touchdown but Morrison failed to kick the goal.

With five minutes to play, Danner intercepted a forward pass and made a pretty run of 80 yards, carrying the ball to his eight-yard line. This looked like a fine chance for scoring, but C. H. S. failed twice on line plunges and then tried a forward pass. McKeesport accepted the pass and once more started the ball up the field, going through Connelville's line almost at will and were prevented from scoring another touchdown by the final whistle.

Yaw played the best defensive game for the locals, time and again breaking through the line and stopping the runner, and the team was greatly weakened when he was hurt and taken out. Danner played a good game on the offensive, making good gains every time he was called upon.

Captain Baldrige and Pateria were the stars for McKeesport.

The lineup:
M'KEESPORT CONNELLSVILLE
Baldrige L. E. Melnick

If Constipated; Bilious
or Headachy, take
"Cascarets"

Sick headache, biliousness, coated tongue, or sour, gassy stomach—always trace this to torpid liver; delayed, fermenting food in the bowels. Pains in the stomach, clogged in the intestines, instead of being cast out of the system is re-absorbed into the blood. When this poison reaches the delicate brain tissue it causes congestion and "dull, throbbing, sickening headache."

Cascarets immediately cleanse the stomach, remove the sour, undigested food and foul gases, take the excess bile from the liver and carry out all the constipated waste matter and poisons in the bowels.

A Cascaret tonight will surely straighten you out by morning. They work while you sleep.—Adv.

THE SOISSON.

"THE BRAT"—In which Nazimova, the great Russian actress, has the leading role, is being shown today. "The Brat" is the first of Nazimova's screen or stage impersonations that presents her as an American girl. Her great fame hitherto has been derived from portrayals of Latin and other European and Asiatic types; but as a real American girl, the product of a

NAZIMOVA IN "THE BRAT"

crowded city, she revealed anew her extraordinary ability as a feminine virtuoso of the emotions.

The story relates the experiences of "The Brat," a nameless girl who loses her job in the chorus and, cast forth into a pitiless world, is first insulted by a masquerade and then haled to the night court on a trumped-up charge. There an author in search of "local color" and especially for a heroine for his forthcoming novel, rescues her and takes her to his aristocratic home.

Their friendship ripens into love and "The Brat" shows pretty soon that beneath her rough and slangy exterior she is a woman with tenderness and warm sympathy. She saves the author's near-do-well brother from the consequences of his follies and in the end brings the novelist to a realization that he loves her and cannot live without her.

A selected comedy is also being shown.

THE PARAMOUNT.

"IN HONOR'S WEB"—A Vitaphone production with Harry T. Morey in a splendid role is an interesting attraction today.

Mr. Morey appears in the role of Frank Powell, a wealthy manufacturer. Frank falls in love with the beautiful sister of the governor's wife. His younger brother, Bert, whom he is sending through college, also loves the girl, and succeeds in winning her.

Meantime Rodney Foster, a countess, social parasite and blackmailer, fastens his attentions secretly upon Irene, the governor's wife. He is the creature who appears to be like the small ship with the big port-hole. His tongue wags. The loose speech of this creature involves the other characters of the story in an immense drama.

Foster is found slain. Frank, who is known to have threatened the creature and who is unable to give an explanation of his whereabouts at the time of the crime, because, in fact, he had been at the moment in the dead of night meeting the governor's wife, is arrested, charged with the crime.

The mystery is finally unraveled in a surprising fashion. Frank is cleared and a bright romance finds fulfillment.

BETTER THAN CALOMEL

Thousands Have Discovered
Dr. Edwards' Olive Tablets
are a Harmless Substitute

Dr. Edwards' Olive Tablets—the substitute for calomel—are a mild but sure laxative, and their effect on the liver is almost instantaneous. These little olive-colored tablets are the result of Dr. Edwards' determination not to treat liver and bowel complaints with calomel.

The pleasant little tablets do the good that calomel does, but have no bad after effects. They don't injure the teeth like strong liquids or calomel. They take hold of the trouble and quickly correct it. Why cure the liver at the expense of the teeth? Calomel sometimes plays havoc with the gums. So do strong liquids. It is best not to take calomel. Let Dr. Edwards' Olive Tablets take its place.

Headaches, "dizziness" and that lazy feeling come from constipation and a disordered liver. Take Dr. Edwards' Olive Tablets when you feel "heavy" and "perky" the "clear" clouded brain and "perk up" the spirits. 10c and 25c.

CATARHAL DEAFNESS MAY BE OVERCOME

If you have Catarrhal Deafness or are even just a little hard of hearing or have head noises go to your drugstore and get 1 ounce of Parmitin (double strength), and add to it 4 pint of hot water and a little granulated sugar. Take 1 tablespoonful four times a day.

This will bring quick relief from the distressing head noises. Clogged nostrils should open, breathing become easy and the mucus stop dropping into the throat. It is easy to prepare, costs little and is pleasant to take. Anyone feeling hearing or who has Catarrhal Deafness or head noises should give this prescription a trial.
